

# SYSTEM 90® ARCHITECTURAL SIGNAGE

Brings them in...ALL DAY & NIGHT.

- Highlights parapets
- Emphasizes store fronts
- Illuminates canopies

- Saves energy
- Saves money
- Lowers maintenance

- Outstanding durability
- Precision engineering
- Highly visible branding

## PREMIUM LED ILLUMINATION

System 90™ LED illuminated fascia provides bright and even light to best promote your brand.

It burns longer, brighter and cooler while saving energy with lower maintenance costs.

## ALL - ALUMINUM CONSTRUCTION

Light weight modular cabinets have rustproof components for a long life in any climate.

Removable top panels and spring-loaded bottom panels provide easy access for service and maintenance.

## ENGINEERED MODULAR DESIGN

System 90™ has a patented, self-adjusting, spring-tensioning design that allows the sign face enough "flex" to stand up to harsh winds and extreme weather conditions.

The design and innovation of System 90™ makes it user-friendly for all installers.

## BOLD BRAND RECOGNITION

System 90™ utilizes 3M's Matched Component System (MCS) of vibrant translucent vinyls laminated to Panographics III for a durable and continuous installation of flexible roll fascia that makes for easy brand identification.

Sharpline's Flexible Fascia Carrier requires less manpower and makes sign face installation quick and easy.

## READY TO INSTALL COMPONENTS

System 90™ provides virtually everything needed for installation of a factory-tested, easy-to-assemble package that minimizes installation time and effort.

A job packet containing the site's plot plan, packing list, and installation manual is included in each shipment.

## 24/7 CURB APPEAL

System 90™ provides the ultimate package of equipment, signage, and value for your business needs that attracts customers to your business all day and night.
